

E-HEALTH PROJECTS RESULTING IN BETTER PROCESSES AND BETTER CARE

May 26, 2009

Officials from the South East Local Health Integration Network's eHealth initiative and participants involved in three innovative eHealth projects in the region will welcome area media to discuss eHealth improvements now underway.

Three media events will be held. The Brockville event will celebrate significant process improvements involving reporting between Brockville General Hospital and surrounding family health teams and community health clinics. Events in Kingston and Picton will celebrate the introduction of electronic patient records between local acute care hospitals and practitioners in the Maple Family Health Team and Prince Edward Family Health Team respectively.

Date: Thursday, May 28, 2009

Brockville event

Time: 8:30 – 9:30 am
